

## RYAN LYNCH

*Managing Director*

Ryan is the Managing Director of GTM's Tax Automation Services group, where he focuses on optimizing technology solutions for use in the tax department. He provides clients with a strong balance of technology experience and subject matter expertise ensuring efficient and effective solutions.

Since joining GTM in 2010, Ryan has led many successful software implementations, process redesign projects, and custom application development engagements. While he specializes in tax accounting software with a focus on ONESOURCE Tax Provision ("OTP") software, he also has vast experience with workflow solutions, custom built software applications, and income tax compliance technologies. Ryan also has tax experience, frequently supporting year-end and quarterly financial close processes at clients across many industries throughout the Fortune 500.

Ryan's career in tax technology started as an early employee of TaxStream, LLC (acquired by Thomson Reuters). There he was head of Customer Support and later in the Product Management department. During his tenure there, the company experienced explosive growth, landing a #51 spot on Inc's fastest growing private companies list and increasing revenues by 2378% over a three year period. Ryan also worked at Deloitte prior to working at GTM, specializing in provision software implementation and support.

Ryan was raised in Medford, NJ and currently resides in Woolwich Township, NJ with his wife and twin daughters. Ryan enjoys spending time with family, friends, cheering on Philadelphia sports teams, and golfing.

---

**EDUCATION:** B.E. in Engineering Management from Stevens Institute of Technology

“ *As Managing Director of the Tax Automation Services group, my focus is on technology-related process improvements, including tax software implementations, workflow and document management systems, and custom built applications. My mission is to maximize our clients' return on investment in tax technology.* ”
