Real People from NJ with Real Tax Solutions for NJ Companies

John Diamond is the managing director and head of GTM's New Jersey office. John leverages his experience as a former EY partner and GTM's proven business model to bring the marketplace a value-added approach to corporate tax matters. He and his locally-based team fill a need for co-sourced and outsourced tax services in the greater New Jersey market. Beyond providing tax technical services, GTM helps clients determine the most effective and practical approach to meet their everyday tax reporting obligations.

A Different Approach than Other Accounting

Firms

"We're easy to work with, and clients find that refreshing," notes Diamond. "All of our engagements include active director-level participation, which is also a welcome aspect not always found elsewhere."

Clients get quality service and the attention they deserve. GTM becomes an extension of a client's team, and provides more than just a service by listening to its clients.

"Our team is agile and can quickly adapt to changing circumstances, without independence issues or red tape," adds Diamond. GTM's employee-owned company structure and strong family-oriented culture have resulted in low turnover and a strong loyalty to the firm and, more importantly, its clients.

Invested in the Community

GTM believes in giving back through active participation in social responsibility activities throughout New Jersey. Recently, the entire GTM NJ team volunteered at Brightview Senior Living in Warren to help facilitate a fun-filled day with casino games for the residents. Residents received awards and prizes for their participation and thoroughly enjoyed the companionship and excitement. GTM NJ also participates annually in the Leukemia and Lymphoma Society's Light the Night event in Verona.

Trusted to Lead and Manage Corporate Tax Functions

GTM can take a lead role, supporting role, or a combination based on a company's tax needs and corporate objectives. The firm's services help create value by providing all the elements that enable tax department functions to operate efficiently.
