

#### **IDEAL FOR:**

- Tax departments that have workload spikes around regulatory filing deadlines, but do not need a fully staffed internal tax department year-round
- Large multinational companies with a complex tax footprint, desiring to maintain ownership of all tax department functions
- Tax departments that need outside expertise in a specific area of tax
- Companies focused on cost reduction

# CO-SOURCING TAX DEPARTMENT FUNCTIONS

For many larger organizations, the complexity of their tax structure makes it difficult to rely exclusively on internal tax resources and expertise. GTM provides more than just borrowed staff to meet regulatory deadlines or other tax requirements. Our team of tax professionals become part of the tax function, typically working side-by-side with our clients' internal tax team. We share responsibility for the work and build lasting relationships with our clients and their entire tax department. A co-sourcing arrangement means that we become trusted and consistent players on the tax team.

### PERFORMING TAX PROVISION

- Annual and interim period provision support (preparation or review)
- Financial reporting and disclosure requirements (10-K, MD&A, etc.)
- Development of provision analytics
- Advisory services relating to ASC 740-30 (APB 23)
- Tax basis studies
- Valuation allowance and deferred validation assessments
- Accounting for uncertain tax position assessments (ASC 740-10)
- Accounting for business combinations
